THE VEGETABLE COMPOUND. A CAUTION. The vegetable remedy for diseases arising from the impurities of the blood, Dyspepsia, Scrofula, and all chronic diseases, also a substitute for Calomel as a cathartic in fever, and all bilious affections.

FROM the extensive applicability to general disease, which this remedy possesses, as is demonstrated in the detailed cases of the various complaints, the proprietor feels justified in claiming for it superior consideration. The numerous testimonials of its efficacy, from physicians, druggists, and distinguished individuals, place it beyond the reach of the doubts of the day and entitles it to special confidence.

These Pills have acquired an unprecedented celebrity as an anti-dyspeptic and anti-bilious remedy, and this reputation being fully sustained by the high character of its testimonials, and the increasing demand for the Medicine, it is only necessary for the proprietor, to continue in caution, that the public may not be misled by other medicines, which are introduced as Tomate preparations, for the true Compound Tomate Pills.

For a full account of this medicine, testimonials, &c. see pamphlets in the hands of all who sell it. None are genuine without the signature of G. R. PHILLIPS, M. D., sole proprietor, Hartford, Conn. For sale in Bangor, by G. W. HOLDEN, G. W. LADD, and A. P. GUILD, and by authorized Agents in nearly every town in the State.

THE MOST HIGHLY APPROVED MEDICINE. Now in general use for Coughs, Colds and all Diseases of the Lungs. THE VEGETABLE PULMONARY BALM is believed to be the most popular medicine ever known in America, for Coughs, Colds, Asthma, or Phthisis, Consumption, Whooping Cough, and Pulmonary Affections of every kind.

Dr. Samuel Marshall of Concord, N. H., writes "that he is a confirmed sufferer from the Vegetable Pulmonary Balm, a valuable medicine, having been used with complete success in cases which had previously resisted the most approved prescriptions."

Dr. Truman Abbott of Lemper, N. H., writes "that he is a confirmed sufferer from the Vegetable Pulmonary Balm, a valuable medicine, having been used with complete success in cases which had previously resisted the most approved prescriptions."

Dr. Amory Hunting of Franklin, Mass., writes "that after having prescribed the usual remedies without success, and having consulted with several eminent Physicians, he has found the Vegetable Pulmonary Balm to have had the desired effect, and recommends it as a safe, convenient and efficacious medicine."

Dr. Thomas Brown of Concord, N. H., writes "that, to his knowledge, it has never disappointed the reasonable expectations of those who have used it."

The public are particularly cautioned against the many Counterfeits or Imitations, which have been put off with the name of the genuine article.

For a full account of this medicine, testimonials, &c. see pamphlets in the hands of all who sell it. None are genuine without the signature of G. R. PHILLIPS, M. D., sole proprietor, Hartford, Conn. For sale in Bangor, by G. W. HOLDEN, G. W. LADD, and A. P. GUILD, and by authorized Agents in nearly every town in the State.

TO THE LADIES. INTELLECTUAL DEVELOPMENTS AND PERSONAL BEAUTY CONSIDERED IN CONNECTION WITH DOCT. FELIX GOURAUD'S POUDES SURTILES.

The sculptor whose study is to imitate the exquisite workmanship of nature, portrays in his model the human form broad and elevated forehead. This development is not only convenient with but sometimes necessary to the possession of a high order of mental faculty. If a fine forehead is a mark of intellect, it is no less an essential element of personal beauty, and it is of importance to those and there are many such possessed of this prominent feature, though obscured by the encroachments of a too luxuriant growth of hair, to remove that portion of superfluous hair which in their case only to deform. This can be done safely, speedily, effectively, and if used in accordance with directions, without the least inconvenience by Dr. Felix Gouraud's Depilatory Powders. The force of the hair when moving or the short hair on the back of a lady's neck, when too apparent, the hair of a mole, or the beard when lying upon the cheek may all be removed, and eventually the roots destroyed, by the use of this preparation.

Manufactured by Dr. Felix Gouraud 67, Walker street one door from Broadway, N. York. \$1.00 per bottle.

GOURAUD'S VEGETABLE ROUGE. Commenced material to form a wax-like complexion, a delicate carnation tinge to the cheek, is achieved by perspiration or rubbing with a handkerchief or a linen cloth. \$1.50 cents per bottle. To be had in Bangor at the sole authorized agents, Messrs. WHITTIER & GUILD, Drugists.

LIVER COMPLAINTS, AND ALL SICKNESS & DISEASES. DR. LIN'S 'Temperance Life-Bitters, AND CHINESE BLOOD-PILLS'.

The Great Secret Discovered!! PURGE, purge, purge has been the cry for the last few years. This has been effectually tried, and yet sufferers have multiplied and died; and why? Not because purging was not necessary, but too much has been done without the tonic to follow, and sustain the system. Purge, you must! The sickly humors of the blood must be carried off, or the accumulation of them prevented. Prevent, then, the growth of such humors.

Why do the Chinese live to such immense ages and still retain the powers of youth or middle age? Because they purify the blood. The Chinese Blood Pills so called because they work upon and cleanse the blood are the standard remedy. These Pills will do it, and the Temperance Bitters, taken as directed, will strengthen the system and prevent the accumulation of the base humors which infect the blood, and which only increase by purges unless the Bitters are taken after. Then, these Pills and Bitters take weekly the Pills and daily the Bitters, and if you are or have been invalids for days, weeks, months, or years, you will find the sickly humors drawn off, and prevented from a return, and the sallow yellow hue of sickness change rapidly to the full blooming glow of health and youthful beauty.

There are cases so numerous of these brilliant effects, that time and space forbid an attempt to put them down. Buy and use these medicines, and use no other, and health and strength shall be yours. See wrapper and directions that come with them.

FRAUDULENT COUNTERFEITS will be attempted. Buy on remedy of the kind unless it have my name O. C. LIN, M. D. on the wrapper, and also the notice as follows.

Entered according to Act of Congress, A. D. 1841, by THOS. CORNELL, in the Clerk's Office of the District Court of the United States for the Southern District of New York.

Warren and the only genuine Messrs. Cogstock & Co., New York, are the sole wholesale Agents for the United States and all neighboring countries.

DOCTOR O. C. LIN. For sale in Bangor by G. W. LADD, corner of Smith's Block, and by A. P. GUILD, Exchange street.

TO THE OLD AND YOUNG. Do! Ye Red Heads & Grey! PHOSPHORIC IN CHEMISTRY.

Fast India Hair Dye. Colors the Hair and will not the Skin!! THIS Dye is in form of a Powder which in plain matter of fact may be applied to the Hair every night, the first night turning the lightest red or grey hair to a dark brown, and by repeating a second or third night, to a bright jet black. Any person may therefore, with the least possible trouble, keep his hair dark shade, or a perfect black, with a positive assurance that the powder, if applied to the skin, will not color it. There is no trouble in removing it from the hair, as in all powders before made. By an occasional application, a person turning grey will never be known to have a grey hair! Directions complete with the article. There is no coloring in this statement, as one can easily test.

These facts are vouched for by the gentleman who manufactures it, who is the celebrated chemist Dr. Cornstock, author of Cornstock's Chemistry Philosophy, and many other works well known and widely celebrated by the public.

This Dye is sold by COMSTOCK & Co., 71 Maiden Lane, New York. For sale in Bangor by G. W. LADD, corner of Smith's Block, A. P. GUILD, Exchange St. and by G. W. HOLDEN, West Market Place. Nov 1. d1w&w3d1wly

THE BOSTON ALMANAC FOR 1842. It will be published about the 20th of December. PURCHASERS are requested to send in their orders as early as possible in Messrs. Thomas Groom & Co, 32 State Street, and they will meet with all due attention.

The Business Directory, of the various Business and Professions in Boston, so happily begun in last year's Almanac, will be continued in this, with all the improvements that our experience may have afforded. The Almanac for 1842 will be of the same size as that of 1841, and bound in the same beautiful style.

If there should be any who have not seen this publication the Proprietor would beg leave to say, that it is a neat little volume of 120 pages, well printed, beautifully bound in cloth, lettered in gold, and contains as much matter as an ordinary two volume, and is sold for the very low price of 25c per copy. The Calendar pages are very complete, containing besides the usual matter, a complete record of the weather in Boston during the past year. Also, each Calendar page is accompanied with a memorandum page, on which the accounts of a family, or other domestic matters may be registered. The paper, being of a strong and firm texture is easily written upon.

JOHN B. SAWARD, Editor.
FRIDAY, A. D. 1, 1842.

Our We learn from various sources that the 'Book Makers' have been busily employed and many new works will soon be ushered into the world. The principal work in Maine, and that which will probably have the widest circulation, and be the most eagerly read, is, "The Life of Mrs. Hannah Kinney" written by Capt. Ward Witham, her first husband. Mrs. Hannah Kinney is a remarkable woman. Her life has been singularly and strangely checked. An account of her life written by Witham has just passed through the press, and will soon be on sale. Its pages reveal many of those incidents of courtship, marriage, and domestic life, a knowledge of which so many eagerly seek but few ever find except in their own experience. It is a rare work. The circumstances which called it forth are peculiar. In some parts of the work the author speaks from the newly opened fountain in the depths of his heart as an ardent lover, a devoted husband and an indulgent father. Then follow the bitter reflections of blighted love, and the agonies of being an injured man abandoned and disgraced, by the object which the young heart had chosen out from the world on which to concentrate its first and early love.

But the book will best speak for itself.

Fire in Dexter.

The dwelling house and wood house, &c. occupied by Mr. Horatio G. Carr, (and formerly owned by Thomas R. Bicknell and kept by him as a tavern) was consumed by fire on the 23d inst. together with most of his tools, a quantity of leather, most of his provisions, and part of his furniture. The fire is supposed to have taken by a crack in the chimney near the roof, the garret was in flames when first discovered, the wind blowing a gale at the time. With much exertion his barns were saved. Mr. Carr had but recently purchased the place, and had been in Dexter but a few weeks, has a large family of small children, and is left very destitute, his case is recommended to the sympathy of the public. Mr. C. was from home at the time of the fire. No insurance.

q r We have received a communication from a "Friend of Temperance," urging upon the public the duty of supporting temperance Hotels. The writer says: "It was said a few years since that we suffered here extremely for a Temperance Tavern, and that all Friends of Temperance who came in town would resort to it if it was established. At a great sacrifice, those who felt the importance of the cause purchased the Franklin House, and fitted it up for this purpose in such a style as to accommodate all who were not disposed to cavil. This has been done at the individual expense of from three to five hundred dollars a piece, by many who wanted the money for their own use. And now shall all their efforts be lost, and they suffered to loose all they have laid out, through the professed friends not sustaining the house?"

q r The people at New Orleans are expecting a great flood of the waters. The river was very high on the 18th ult. and accounts from the upper country speak of the different rivers as bank full and rising. From every direction, the waters of the Ohio, the Missouri, the Arkansas, &c. were coming in fearful quantities. In the vicinity of Vicksburg, the damage has already been great. Several plantations are overflowed, and the river is advancing steadily. Dr. Nutt's plantation was completely under water, his family having been taken off in a boat.

q r There is a touch of enterprise in Belfast, for the Signal says there was launched from the yard of Master Rolerson, in that town, on Saturday last during the snow storm, a fine Brig, called the *FORLIFE*, about 150 tons burthen, she is of good model and workmanship. At the same time, and all within one hour, the frame for a Brig of about 200 tons was raised upon the same blocks; and also, at his yard the frame for a Ship of 400 tons; all done within an hour or two. Master Rolerson possesses a good share of the "go ahead" quality. Success to his enterprise. Master Palmer is building a Barque of about 240 tons; Master Carter a Brig of 220; and another Brig in contemplation, 200 tons. Total amount of tonnage, 1410.

q r On Monday next the citizens of Portland elect their Mayor, and city officers. On provision of their charter which has been considered of great excellence, and has been highly recommended by Hon. John Anderson to the adoption of our citizens, was that the subordinate officers should be chosen at the close of the year. This provision has been altered without any movement on the part of the citizens or city council of Portland so that subordinate officers are to be chosen at the commencement of the year. There seems to be a general interest in the election, and both parties mean to bring out their whole strength.

Burns.

Mr. A. Bronson, of Meadville, Pa. says from fifty years' experience, he finds that an Indian meal poultice, covered over with young hyson tea, softened with hot water, and laid over burns and frozen flesh, as hot as it can be borne, will relieve the pain in five minutes; that if blisters have not arisen before, they will not after it is put on; and that one poultice is generally sufficient to affect a cure.

q r New Orleans papers of the 19th contain nothing farther from Texas. A meeting of citizens held at the 19th inst. and resolutions were adopted and sent to the Texas Association.

q r Meetings of sympathy for the Texans are now quite frequent at the South and West, and the people are laboring with the wish of seeing Mexico and the United States. Whatever may be the final result, the want of men and means and preparation on the part of the Texans, and the well arranged system of the Mexicans, and their rapid progress into the country make it apparent that the Texans must have a hard and difficult struggle to encounter for some time even if they should not be entirely defeated.

Science against Strength.

The Frontier Journal states that two colored men who made their escape from the county gaol at Machine, were arrested in St. Stephen on Sunday last, by Mr. Collins, Sheriff of that county, who was assisted by several individuals in St. Stephen, in securing the fugitives.

The manner in which they made their escape was by making a fire on a piece of stove pipe, which they held against the wall until the stone became heated, they then jumped on water, by which means they were enabled to break a stone eighteen inches thick into pieces, some of which weighed 30 lbs.

q r It is stated that about eighty teams have for sometime been employed at Bucksport in getting out ice from their favorite pond. About ten thousand dollars, it is estimated has been left in that town from this business alone the past winter and spring. The village has been quite lively. Many of the cellars there are filled with ice, and it is stowed about in various ways either already sold or waiting for a market. They will probably have enough left to cool all the lemonade, and make all the ice creams, that will be wanted for the next six months.

q r The Young People's Book for April has arrived in good season, and is an attractive number. The principal embellishment is a splendid engraving giving a view of the water works at Fairmont. This attractive method of publishing suitable periodicals for the young is republican, and with the able pens, and the skill of the artists employed upon this periodical must make it a general favorite wherever it shall become known.

q r Messrs. Vinton & Porter have sent us this morning a pitcher of noble looking, plump Oysters. We shall try their quality immediately on our paper going to press. It is a satisfaction to know that our citizens generally can, at their pleasure, enjoy a bowl of good oysters now the market is well supplied.

q r The Revised Statutes impose a fine of five dollars when a man who has been chosen to office neglects for a week to take the oath required. Of course there will be a good deal of swearing at the City Hall to-day and to-morrow.

q r A Steamboat wharf, 300 feet long is being built at Belfast, and the editor of the Signal fancies that that quiet and beautiful town will soon show the noise, bustle and impudence of New York.

q r A splendid Ball is to be given to Hon. Henry Clay at Washington on the 12th of April, the anniversary of his birth. Twenty six Managers on the part of Congress are appointed, with as many on the part of the citizens.

For the Whig and Courier.

A meeting was held at the Court House in Dover on Tuesday evening the 24th of March 1842, to consider and discuss the subject of Protection to American Labor and the policy of establishing a tariff of duties on foreign productions adequate to the wants of an economical government, and for placing the country in a suitable state of defence. James S. Holmes, Esq. was called to the Chair and Stephen P. Brown and William G. Clark were chosen Secretaries.

A committee of five was chosen to draft and report resolutions expressive of the sense of the meeting.

The meeting was then addressed by Honorable Edward Kent in a very able and appropriate speech of about one hour's duration. Mr. G. O. Morrison, Esq. from the Committee on Resolutions reported the following which were adopted.

Resolved, That, in the present state of this country, with a drained treasury without adequate revenue or means thereof with manufactures crippled a currency deranged beyond precedent with enormous importations from foreign countries, draining us of our specie, the true interests of all classes demand a discriminating Tariff upon foreign importations for the purpose of protecting American Industry and creating a Revenue sufficient for an economical administration of Government, and for placing the country in a suitable state of defence.

Resolved, That the policy of free trade in this nation, while it is not recognized by other nations, would not only oblige us to resort to direct taxation as a means of supporting government but would be like adopting as a National Law, the sentiment, that in no case is war justifiable, while all other nations continue to recognize the sentiment that defensive and offensive wars are both justifiable.

Resolved, That the proceedings of this meeting be signed by the Chairman and Secretaries, and forwarded for publication in the papers published in the city of Bangor.

Voted, To adjourn without day.
JAMES S. HOLMES, Chairman.
STEPHEN P. BROWN, } Secretaries.

q r There will be a regular meeting of the Mechanics Association this evening.

q r The city Council will meet on Saturday at 2 o'clock, P. M.

q r The public schools in the city will commence the spring term on Monday next. The Primitives at Washington city have formed a large Temperance Society.

To the Senate and House of Representatives of the United States in Congress assembled; A. D. 1842.

q r The undersigned, citizens of the State of Maine, respectfully represent, that the American and English vessels between the United States and the Islands and Colonies belonging to Great Britain, North and South of the United States, as now regulated by the Laws of the United States, acts of Parliament, and orders in Council of Great Britain, does not afford to the citizens of the United States that just reciprocity in the trade, which they ought to be entitled to, under the Laws of their Government.

The direct trade from the United States to the British West India Islands, and Southern Colonies is so much embarrassed by the heavy discriminating duties imposed on many of our staple productions by the British Government for the protection of their Northern Colonies, that the trade in American bottoms is virtually prohibited.

The advantages enjoyed by the British Northern Colonies in their trade with all the ports in the United States in the importation of Flour, Lard, Wood, Hay, Potatoes, Oats, and other productions of the Provinces is without a just equivalent on their part, and operates heavily to the disadvantage of our own coasting trade.

They would, therefore, respectfully request that the Laws in relation to the trade above mentioned may be altered, so as to secure to the citizens of the United States a participation in said trade, upon terms of equality.

q r The late Texan Minister to this government says the Mexican troops now invading Texas are only the advance guard, and that 20,000 more are near at hand, while the Texans are almost wholly unprepared to meet even the smaller number. The Washington Correspondent of the Mail says:

"The Texan Government is entirely destitute of means, and the citizens not in condition to sustain any protracted contest. It will go hard with the 'young republic' before we hear from her again. Gen. Arista commands the advance, and Santa Anna the main army. The Mexicans, by his account, are behaving with much humanity and courtesy to those who do not resist, even paying for provisions. The friends of the annexation of Texas, here, are furious for a war with Mexico; and if our government cannot be forced into it, they will not hesitate, as they formerly did, to violate our neutrality laws, by organizing forces in the South and West to invade Mexico."

Rhode Island.

The struggle for and against the adoption of the regular or 'landholders' Constitution has terminated, and the Constitution is defeated. We have not full vote, but it is nearly 7,500 for and 8,500 against the Constitution, so it is rejected. This Constitution conceded to the non-freeholders the right of voting after a residence of two years in the State and one in the County, except to those not born in the United States, who are required to be Naturalized, and to own \$134 worth of Real Estate in the State or \$500 worth of taxable personal property. This discrimination was deemed invidious by the non-freeholders, and they have therefore voted down the Constitution.

A fearful crisis now impends. The Freeholders go back to the old Charter, and say they have offered a most liberal compromise, which has been rejected, and they shall now cling to and maintain the form of Government handed down to them by their fathers. The non-freeholders maintain that the 'People's Constitution' formed by the Free Suffrage Convention, assembled by popular requisition, without any Legislative authority, has been adopted by a majority of the adult male residents of the State, and is now its paramount law. They have nominated their ticket of State Officers, will elect it, and thus bring the two Governments in direct, and we fear, forcible collision. Such a course must lead to painful consequences? Yet how is it to be avoided? A reference to the arbitrament of the Supreme Court is talked of, but we see not how that tribunal is to be reached, at least until after actual collision has taken place. The controversy wears a most gloomy aspect.

A Treaty with the Indians.

We learn by a letter from Col. John Johnson, United States Commissioner, published in the Ohio State Journal, that on the 9th inst. he concluded at Upper Sandusky (Ohio) a treaty of cession and emigration with the Chiefs and Councilors of the Wyandot nation of Indians, by which the chiefs are to remove their people to the South-West of Missouri in 1843 at their own cost, and without the usual agency on the part of Government of superintendents, conductors, teamsters, &c. the Indians furnishing their own transportation and subsistence on the journey, and finding themselves provisions at their new home. By this treaty the Wyandots cede to the United States, without any reservation all their lands, consisting of about one hundred and fifteen sections, said to be among the best in Ohio, and much of it in a state of cultivation. [Nat. Int.]

A dancing master at St. Petersburg, by origin a Dutchman, has given notice that he will give a ball in the snow, and intends to take advantage of the first snow which falls for that purpose. He proposes to bet with any lady or gentleman that he will "dance" out in the snow their names at full, in legible characters, that he will not once miss time, and that each of his steps shall form part of a regular dance. Several persons of distinction have accepted the bet.

The Chairman of the late radical and tumultuous meeting at Concord having been charged by Hill with making use of a club on the occasion, the Old Patriot says it was not a club; but only a piece of board, some two feet long, about two inches wide at one end, and running to a point at the other.

The New Bedford Bulletin says that the queer-looking hoods now worn by the ladies, are named "kiss-me-if-you-dare."

The neat little cottage straw bonnet will be one the most worn this spring, and the ensuing summer.

The Boston Courier says a line of Steamboats is to be established between Eastport and Boston, touching at Castine, Belfast and Portland.

Living and Ornamental Fences.

At a recent meeting of the Botanical Society of London, Mr. D. Cooper gave an account of a new living fence, formed by planting young trees in a slanting position, every tree leaning the opposite way, so that they will cross each other, and then at the parts which come in contact, take off from each a piece of bark and tie close together, covering the part with clay. This grafts each tree into his neighbor, and the trees grow a living fence, with diamond shaped openings. The plan is an excellent one for ornamental fences.

CONGRESS.

The following are the Resolutions offered by Mr. Giddings, in the House on the 9th inst.

Resolved, That prior to the adoption of any Federal Constitution, each of the several States comprising this Union, exercised full and exclusive jurisdiction over the subject of slavery within its own territory, and possessed full power to continue or abolish it at pleasure.

Resolved, That by adopting the Constitution, no part of the aforesaid powers were delegated to the Federal Government, but were reserved by, and still pertain to each of the several States.

Resolved, That by the 9th section of the 1st article of the Constitution, each of the several States surrendered to the Federal Government all jurisdiction over the subjects of commerce and navigation upon the high seas.

Resolved, That slavery being an abridgement of the natural rights of men, can exist only by force of positive municipal law, and is necessarily confined to the territorial jurisdiction of the power creating it.

Resolved, That when a ship belonging to the citizens of any State of this Union leaves the waters and territories of such States, and enters upon the high seas, the persons on board cease to be subject to the laws of such State, and therefore are governed in their relations to each other by, and are amenable to, the laws of the United States.

Resolved, That when the brig Creole, on her late passage to New Orleans, left the territorial jurisdiction of Virginia the slave laws of that State ceased to have jurisdiction over the persons on board of said brig, and such persons became amenable only to the laws of the United States.

Resolved, That the persons on board said ship in rescuing their natural right of personal liberty, violated no law of the United States, incurred no legal penalty, and are justly liable to no punishment.

Resolved, That all attempts to regain possession of or to re-enslave said persons are unauthorized by the Constitution or laws of the United States, and are incompatible with our national honor.

Resolved, That all attempts to exert our national influence in favor of the coastwise slave trade, or to place this nation in the attitude of maintaining a commerce in human beings, are subversive of the rights and injurious to the feelings and the interests of the free States, are unauthorized by the Constitution, and prejudicial to our national character.

[Correspondence of the Journal of Commerce]

WASHINGTON, March 27.

There is a rumor tonight, that it is intended to despatch the Home Squadron to the Gulf of Mexico or that such a project is under consideration. The interests of our commerce may require the presence of a force there, during the war between Texas and Mexico. It has been said, however, that the object is to negotiate, in a prompt and efficient manner, according to Mr. Wac's suggestion, for the release of the American captives. Mr. Lawrence, the agent who was sent to Mexico to procure the release of Mr. Kendall and other citizens of the United States who were in the Santa Fe expedition, has returned and is now here. It appears that no notice was taken of the demand of our government. The two individuals who were released, obtained their liberty, not through the influence of this government, but of their personal friends and connections. The general reputation of Mexican debts, with the exception of that due to England, is supposed to include the debt due to our citizens, under the awards of the late commission.

War with Mexico is likely to be very popular particularly with the Southern States. It will be found, however, to be no joke. Santa Anna can fill his Treasury by selling letters of marque and reprisal upon the commerce of the United States to the English, French, Spanish, and especially the American pirates. Civilized nations must put a stop to privateering. The United States in some of their early treaties, made mutual stipulations against the practice. Private property is entitled to as much respect on the ocean, as on the land. Privateering ought to be considered and treated as piracy. This mode of alleviating the distresses of men is entitled to the notice of the "quintuple alliance."

The Consul of the United States at Havana has notified the State Department at Washington, that he has been desired by his Excellency the Captain General of the Island of Cuba, to inform those citizens of the United States visiting the island, that a passport from a Spanish Consul is necessary, not only in compliance with what is customary on the island, but as a positive requisition of the supreme law.

PUBLIC LANDS IN THE STATE OF MAINE—FOR SALE.
TIMBER LANDS by the township, half township, and quarter townships, in various parts of the State of Maine, situated on desirable water, are offered for sale so as to suit all persons who may be disposed to purchase for lumbering operations and will be sold on liberal terms of credit. All lands suitable for agriculture, by the township parts of townships, and in lots for single farms, offered to accommodate all classes of purchasers. These lands are well worthy the attention of persons who are desirous of large timber or agricultural concerns, and are equally desirous of the situation of those, who only want lands upon which to locate themselves for farming purposes, and wish to become actual settlers. In no part of the country does the productions of the earth find a better market, to reward the farmer for his industry. Those who choose to make up companies to purchase lands for agriculture, can be accommodated with tracts of one, two or three thousand acres more or less, with an opportunity of selecting land in a body, where they may greatly improve the condition for a small consideration. For price and terms, apply at the Land Office in the State House, Bangor, where the plans and other documents may be consulted, and every information given, showing the location and qualities of the timber and soil.

LIGENT.**
WHITWELL'S COUGH AND ASTHMA
TIC CANDY. A pleasant, safe and effect-
ual remedy in Coughs, Asthma, Sore Throat, and
all complaints of the Breast and Lungs. This is the
first COUGH CANDY ever made in the United
States, and contains not only the most approved
Cough Drops, but also Horehound, Borage, Col-
foot, Gum Arabic, Iceland Moss, Liquorice, etc. It
is the only Candy in the United States that can ever
cure a Cough. All others are made for sale and not
for effect. Buy 4 oz. and you will save one, and so
have a box of Cough Pills without cost; 4 ounces
of this Candy will be of more service to you than a
pound of any other. Sales, certificates and clamor
are no criterion of merit. It is pleasant to the taste,
and is calculated for both sexes and all ages, espe-
cially to females and children.
Sold in Bangor by G. W. LADD, also by FOL-
